PIKE ATTRACTIONS.

Some of the Amusements Announced for
the Great State Fair for 1906.

Dallas, Texas, July 5.—Two attractions on the State Fair Pike this year will be the Scenic Railway and the Shoot the Chute. The former, already completed and in operation, has nearly two miles of track, and is proving a great popular sensation. The latter, which is receiving the finishing touches, and which will be ready early in the month, is being constructed according to the latest pattern. A ride on it will involve a thrilling descent of the incline, terminating in a wild plunge into the lake. These two amusements, which represent a combined investment of more than \$75,000, are located south of the race track grand stand. They run parallel to each other, one on each side of the west end of the Pike, which latter will occupy a space 250x1125 feet and be crowded to the last inch with good things.

Six thousand people at Abilene loudly applauded Senator Bailey's declaration that Bryan will be the next president. He also declared that imprisonment for dishonest trust magnates is the only effective remedy.

W. J. Bryan's London speech on the "White Man's Burden" shows how broad and splendidly poised and wholesome his statesmanship has become. The United States cannot longer claim him as wholly her own. His trip abroad has shown that his influence is world-wide.

DEPOSITORY BIDS WANTED.

Sealed bids will be received by the city council of the city of Bryan at its next regular meeting Friday, July 13, 1906, for the depository of the funds of the city for the ensuing year.

J. E. Butler, Mayor.
Frank Clarke, City Secretary. 186

BRYAN CENTRAL FIGURE.

He and Reid Engage in Sharp but Good Natured Rally.

London, May 5.—William J. Bryan was the central figure at the annual independence day dinner of the American society at the Hotel Cecil Wednesday. Nearly 500 members and guests surrounded the society's board and cheered patriotic sentiments with the peculiar zest born of exile. Ambassador Whitelaw Reid and Mr. Bryan engaged in some sharp, but good-humored rally and banter over political differences, the crowd enjoying the sport with cheers and shouts of laughter.

Mr. Reid, in responding to Sir S. W. Richmond's graceful proposal of his health, said with reference to Mr. Bryan:

"At home, as a Republican, I have openly and squarely opposed him at every stage of his conspicuous career. I am reasonably sure that when I return home I shall continue to do the same. I believe he tonight is as well satisfied as I am, that the country we both love and try to serve has not been ruined by its gold standard. As to its official representative of its people, without distinction as to party, I am glad to welcome him here as a typical American, whose whole life has been lived in the daylight, and one whom such a great host of my countrymen have long trusted and honored."

Mr. Bryan, rising amid laughter and cheers, said:

"The temptation to make a political speech is strong within me. I have not had a chance to do so for ten months. However, I will restrain myself. With reference to the ambassador's remarks on gold, I wish to say that when I see the progress my country has made walking on one leg, I wonder what it would have done walking on two. It is pleasing to testify that the ambassador not only has fought me, but that he has done it well. No American rejoices more than I that he is 3,000 miles away from his base. While abroad I have met many good Republicans, holding office, and I only wish there were enough officers abroad to take all the Republicans out of the country."

Chairman W. F. Jones proposed the health of King Edward, and Hayward Green, president of the Canadian society, and member of parliament for the City of New York, proposed the health of President Roosevelt.

When they arose to drink the toasts, the crowd discovered Mrs. Nicholas Longworth in the gallery and cheered and drank her health.

Following the passage between Ambassador Reid and Mr. Bryan, the latter read his formal speech. The reading of the speech proved a disappointment to the crowd, which wanted oratory unhampered by manuscript.

J. L. Griffiths, the American consul general at Liverpool, answered for the guests. He paid his respects to those persons who could see the spots, but not the sun. This was in reference to the recent packing house exposures.

The American and British flags were draped on the walls of the dining room and the orchestra played a programme of American melodies.

During the dinner Ambassador Reid read a letter from Queen Alexandra expressing the keenest sorrow over the Salsbury railway disaster.

CAILEY PRAISES BRYAN.

Says Democrats Will Nominate Him, and He Will Be Elected.

Abilene, Tex., July 5.—For more than two hours Senator Bailey addressed over 6,000 persons here Wednesday. During his speech he predicted the nomination and election of Hon. W. J. Bryan. This declaration, as well as the confidence expressed by Senator Bailey in the course of which Mr. Bryan would pursue in the executive office were met with wild applause amounting almost to a demonstration.

Referring to President Roosevelt, the senator said he had only an occasional impulse toward the American people.

He declared the imprisonment feature of the railroad rate regulation bill was the only part worth wrapping about his finger.

This section also shipped this year the first care of onions, potatoes, cabbage, cucumbers and watermelons.

BROKE CHILD'S NECK.

Deplorable Accident That Happened to a Girl at Blanket.

Blanket, Tex., July 5.—While lying on the floor and romping with his children J. W. Nelson broke the neck of his twelve-year-old daughter. He was holding her with his leg around her neck, when suddenly she ceased struggling, and exclaimed: "Oh, papa, you have killed me." She immediately became unconscious and went into convulsions. Physicians were hurriedly summoned, but held out no hopes for her recovery. The father is prostrated with grief.

Before autumn Admiral Evans will have a fleet of sixteen battleships, which will be the largest fleet of effective vessels ever assembled at one time by the United States.

A new feature is to be introduced in the maneuvers this summer and the ships are top practice evolutions without signals, in order to meet emergencies in battle when, owing to smoke or when signal apparatus has been soot away, can no longer be given. While it is regarded somewhat hazardous, the maneuvers of the big battleships without signals is thought necessary.

Mexican Girl Manages to Escape, but Is Badly Burned.

San Antonio, July 5.—A fire, thought to have been caused by firecrackers, destroyed the two-story frame house belonging to Richard Ellis, and located on his dairy farm on the Bandera road, about one mile west from the city limits. A Mexican girl, who worked at the dairy, was forced to jump from the roof. She was painfully burned, but not injured. The damage is estimated at \$5,000.

Three deaths and ninety-seven persons injured during Fourth of July festivities occurred at Chicago.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion.

It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart, and in the course of time that delicate but vital organ becomes diseased.

Mr. D. Kauble, of Nevada, O., says: I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me.
